# PRECAST CONCRETE POST & PANEL FENCING »

Precast fencing is both an effective and efficient way to suit your wall or boundary needs. Concrete fences are a lifelong solution.

## Posts

### H-Posts

- H-Posts are slotted each side for panels
- To hold the weight of the precast panels, H posts need to be set a minimum of 2' (600mm) into the ground
- H-Posts are rot free

*Smooth slot  
finish for easy  
installation*

Available in the following sizes:  
6ft, 7ft, 8ft, 9ft, 10ft & 12ft

## Panels

### Rockface

- These panels are 1830mm long and 300mm high (6' long and 12" high)
- Rockface design is on one side of the panels

### Plain

- Plain panels are 1800mm in length and 300mm high
- Compatible with timber fence panels
